GENERAL ORDERS,

HEAD QUARTERS,

CHOULTRY PLAIN, *1st September, 1802.*

G. O. BY THE COMMANDER IN CHIEF.

The Right Honorable the Governor in Council having addressed the Subjoined Orders to the Commander in Chief, to be published to the Army, they are accordingly published in Military Orders.

Fort St. George, 25th August, 1802.

G. O. BY GOVERNMENT.

THE Right Honorable the Governor in Council has been pleased to establish the following Regulations connected with the Medical Regulations published in the General Orders of the 3d instant.

Detachments, or parties of Recruits, belonging to Regiments not on this Establishment, which may be placed in Garrison at Fort St. George, or any other Station under this Presidency, are directed to be drawn for at the rate of Sixty Cash per Man per day, and Twenty Cash in Medicine, by the Surgeon ordered to take Medical charge of them, who will defray the Hospital expences of the Sick.

When Sick Soldiers not belonging to any Detachment, or party of Recruits, not attached to any Regiment upon this Establishment, shall be placed in the General Hospital at the Presidency, or at any Subordinate Hospital, the Surgeon in charge of them shall draw from the Paymaster an allowance of 8 Fanams per Man per day on their account.

It having been found that the execution of that part of the General Order of the 3d instant, directing Hospital Surgeons to charge

charge upon honor for the Sick of European Regiments, under their care, will be attended with difficulty; and it having been ascertained by experience that the allowance of 8 Fanams per man per day, bears upon an average, a just proportion to the expence actually incurred in the victualling, clothing &c. of European Sick, it is directed that Surgeons at the Head of fixed Hospitals shall be invariably allowed to charge 8 Fanams for such sick Europeans as may be placed under their care, drawing that allowance from the Paymaster of the Station, in two bills for each Regiment, accompanied by rolls specifying the names, and ranks, of the men, and the companies to which they may be attached, viz. One Bill for 5 Fanams, 40 Cash, and the other for two Fanams, Forty Cash per day, for each man so situated.

These Bills will be forwarded by Paymasters of Stations to the Military Paymaster General, who, in the case of the Company's Troops, is directed to transmit them to the Paymaster of the Garrison where the corps to which the sick respectively belong, may be stationed, in order that their amount may be deducted from the abstracts of the Surgeon, and the officers charged with the payment of Companies, according to the stated proportions, and in the case of His Majesty's Troops, the Military Paymaster General is directed to forward the Bills through the King's Deputy Paymaster General to the Paymasters of Regiments, by whom the requisite deductions will be made, and brought to account.

By Order of the Right Honorable the Governor in Council.

Sec. to Government.

Fort St. George, 1st September 1802.

G. O. By Government.

The Right Honorable the Governor in Council has been pleased to permit Lieutenant Colonel Richardson to resign the Appointment of Quarter Master General of the Army, and to proceed on furlough to Europe.

In accepting the resignation of Lieutenant Colonel Richardson, His Lordship in Council feels great satisfaction in recording his entire approbation of the conduct of that Officer during

a

a long period of service, and in publishing to the Army the sense entertained by His Lordship in Council of the zealous, honorable, and meritorious services rendered by Lieutenant Colonel Richardson, in the distinguished Stations filled by him on the General Staff of the Army during a period of fifteen years.

The Governor in Council is pleased to permit Lieutenant Colonel Robert Mackay, Lieutenant Colonel Charles Corner, and Lieutenant Colonel Adam Lindsay, to proceed to Europe on furlough.

The Governor in Council having received a report relative to the health of Mr. Assistant Surgeon Little which precludes the expectation of his being enabled to resume the duties of his profession, is pleased to direct that Mr. Little shall be transferred to the Non-effective List, and Pensioned on the pay of his present rank.

By Order of the Right Honorable the Governor in Council.

Rreturns

Returns to the Regimental Paymasters of His Majesty's Regiments of the number of men belonging to the respective Regiments who may have been victualled by them for the previous Month, which inattention precludes the Paymasters from making the requisite stoppages at the proper periods, His Lordship in Council is pleased to direct that such Garrison Storekeepers as shall fail to comply with the Orders above quoted, within the time therein prescribed, shall be held responsible for the sums which may be retrenched in the distribution of King's subsistence, in consequence of their failure to transmit the necessary Returns.

G. O. BY GOVERNMENT.

The Right Honorable the Governor in Council has been pleased to publish in General Orders, the following Copies of Paragraphs

graphs contained in a Letter from the Honorable Court of Directors, dated the 28th April 1802.

Para 38.—Being of opinion that the appointment of an Adjutant to the Corps of Engineers, is, in time of Peace, an useless appointment, we direct that it be immediately revoked.

175.—The report of the great success of Mr. Surgeon Richardson in introducing the practice of inoculation for the Small Pox amongst the Natives in the Trichinopoly Country, has been perused with great satisfaction; and we approve of the compensation which was granted to that gentleman for the extraordinary expense and trouble incurred by him in this useful project—we shall have great pleasure in being advised that your endeavours for promoting inoculation in the other provinces under your Jurisdiction, have proved equally effectual.

142.—In our Military letter of the 20th January 1797, you were informed that the Fees paid by us for a Captain's Brevet Commission were (£. 8 15.) Eight Pounds fifteen Shillings; but by the additional Stamp Duty, the Fees on those issued after April 1797 were encreased to £. 9. 7. 6. you will therefore collect these Fees accordingly with respect to Subalterns, Commissions, none have been sent to you from us.

180.—Lieutenant Colonel Alexander Beatson retired from our Service the 7th instant, you will therefore discontinue his name in the List of our Army on your Establishment.

181.—We have permitted Major Ridgeway Mealy of your Establishment to remain another year in England.

183.—Lieutenant William Martin of your Establishment died the 1st of January 1799, on board the *Good Hope* in his passage home.

185.—We have appointed the following Assistant Surgeons for your Presidency in further part of the number we this season (1801) agreed to send thither, viz.

Thomas Dickson,
Samuel Riviere,
William Currie,
John Whitfield,
Mathew Scott Moore,
William Scott,
William Somervell Mitchell.

186.—Application having been made to us by the Friends of Mr. Richard Howell Jones, whom we appointed an Assistant Surgeon to your Presidency of the season 1800, stating that he had taken his passage on the country ship *Upton Castle*, Captain Pavin, about June 1801, without knowing that it was necessary

that

that he should first have obtained our permission for that purpose, his Name was therefore omitted in the said List of Rank under the presumption that he had not proceeded to his appointment. Should you however be satisfied that Mr. Jones arrived at your Presidency in the above ship, we direct you to place him between Mr. Thomas Trotter and Mr. Alexander Tennent, being the rank to which he is entitled in the List of the season of 1800.

187.—Since making up the List of Rank of the Second Class of Assistant Surgeons for your Presidency of this season, we find that Mr. Thomas Dickson has taken his passage on the *Lord Nelson*, we therefore direct that you place him on the List abovementioned between Mr. William Willyams and Mr. Henry Fowle, being the Rank to which he is entitled in consequence of his proceeding on that ship.

By order of the Right Honorable the Governor in Council.

HEAD QUARTERS, CHOULTRY PLAIN, 16*th Sept.* 1802.

G. O. By the Commander in Chief.

The following Extracts from the Proceedings of a General Court Martial held in *Seringapatam,* on the 1ſt of September 1802, for the trial of Captain Hugh Maſſey Fitzgerald of the Bombay European Regiment, on charges prefered againſt him by Captain Thomas Gibſon of the ſame Corps—is publiſhed to the Army—The Sentence (under the authority delegated to him) having been confirmed by the Officer Commanding the Forces in *Myſore.*

SENTENCE.

1ſt CHARGE—The Court is of opinion that the Priſoner is not guilty of the 1ſt charge Viz. "diſreſpect to me his immediate Commanding Officer and irregular and un-officer-like conduct in tranſmitting a Letter, addreſſed to me on duty to Lieutenant Colonel Boles, Commanding in the Province of *Malabar* and *Canara,* without my conſent, and communicating with him (Lieutenant Colonel Boles) on the ſubject of the ſaid Letter relating to Regimental buſineſs, before I have decided on the merits of the caſe, and without ſending his repreſentation through me, as expreſſed in the charge," But it is of opinion that the Priſoner is guilty of irregular conduct, in tranſmitting the aforeſaid Letter to Lieutenant Colonel Boles as ſtated therein.

2d CHARGE

3d CHARGE.—The Court is of opinion that he is not guilty of writing an "insulting, threatening and mutinous Letter to me his imme- "diate Commanding Officer on the 5th Instant, in answer to a "Letter on Service which I wrote to him on the same day," But it is of opinion that the Prisoner is guilty of writing an insulting and threatening Letter to his Commanding Officer, as stated in a part of the said charge.

The Court having found the Prisoner guilty of parts of the Charges alledged against him as above stated, which being a breach of the Articles of War, and to the Prejudice of good order and Military Discipline, it does therefore award and Sentence him the Prisoner Captain H. M. Fitzgerald, to be reprimanded in such manner as the Honorable Colonel Wellesley, Commanding the Forces in Mysore &c. &c. may think proper.

The

The Sentences paſſed on the Priſoners Syed Mahomed Alley, Havildar Soubangee and Gemal Ahmed, private Troopers of the 1ſt Regiment Native Cavalry, to be carried into effect in front of that Corps as ſoon as poſſible after the receipt of this order.

The Priſoners Gholam Ally and Burrow Chan Naigs, and Ramgee, Shubodeen, Gopal Sein, Sied Abdul Cawder, Shandogee, Gevangee and Shaik Mohdeen, Private Troopers, of the 1ſt Regiment of Native Cavalry, having been acquitted of the charges preferred againſt them, are to be releaſed from confinement, and return to their duty.

The Commander in Chief has remarked with much diſpleaſure, that the groſs neglect of duty of which the Priſoners Syed Mahomed Ally, Soubanjee, and Gemal Mahomed, have been found guilty, has appeared to the Court a matter of ſuch trivial import, as their ſentences even on reviſion ſeem to imply.—He exhorts all Officers in charge of Native corps to impreſs on the minds of the Native Officers and Soldiers under their command, the importance of that duty which the Priſoners above mentioned have ſo ſcandalouſly neglected—and the neceſſity for awarding an adequate puniſhment for offences of ſuch magnitude, when guilt is eſtabliſhed by incontrovertible proof.

This neceſſity ſeems to have been little underſtood by the Officers compoſing the Native Court Martial lately aſſembled at *Vellore*,—who have limited the puniſhment of a Native Non-Commiſſioned Officer found guilty of ſuffering the eſcape of Priſoners committed to his charge, to diſmiſſion from the Honorable Company's Service!!!

Lieutenant Wilſon of the 2d Battalion 3d Regiment, who, acting as Judge Advocate, conducted the Proceedings of the Native General Court Martial at *Vellre*, is directed to join his Corps.

Subidar Rajah Beg, of the late 1ſt Madras Battalion, is poſted to the 1ſt Battalion 10th Regiment from the 1ſt inſtant.

The following promotions is ordered in the 1ſt Regiment of Cavalry: Commiſſions dated 10th September 1802.

Fort St. George, 22d September, 1802.

G. O. By Government.

The inconveniences arising from the exhisting mode of controling the Bazars attached to Military Stations under this Presidency have long afforded a source of anxious consideration to the mind of the Right Honorable the Governor in Council;

10

both in reſpect to the operation of thoſe evils on the principles of military ſubordination, and as affecting the adminiſtration of the civil Government. The means which facilitated the introduction of this ſalutary reform under the Government of Fort William, were abſolutely unattainable while a divided authority in the Carnatic continued to diſtract the meaſures of the executive Government; the Governor in Council has therefore been compelled to poſtpone the regulation of the Bazars, on the principles eſtabliſhed in Bengal, which have long been recommended to his Lordſhip's attention, as well by the high authority from which they proceeded as by the ſalutary effects which they have produced: among the abundant advantages obtained from the conſolidation of the Britiſh power in the Deckan, it is ſatisfactory to the mind of the Right Honorable the Governor in Council, that the treaties of the Carnatic and of Tanjore have removed the impediments which have oppoſed the adoption of this uſeful meaſure; while the progreſs already made under the operation of the ſame favourable cauſes on the improvement of the civil Government, of theſe territories, demands the abolition of a ſyſtem, not leſs incompatible with the preſervation of military order, than with the rights conferred on the native ſubjects of the empire under the protection of the civil tribunals.

Impelled by theſe conſiderations, the Right Honorable the Governor in Council has deemed it to be his duty at this time to revive the conſideration of the mode in which the Military Bazars appear to have been conducted under this Preſidency: the reſult of that conſideration has ſatisfied His Lordſhip in Council, that the interference of Officers Commanding Forts or Stations with the regulation and controul of Bazar duties, and the appropriation to themſelves of the perquiſites of command, have a direct tendency to looſen the principles of ſubordination; to vitiate the due exerciſe of military authority; and to impede the regular ſupply of proviſions for the Troops; His Lordſhip in Council has therefore been pleaſed to aboliſh the preſent means of ſuch indefinite emolument, and to ſubſtitute the following ſyſtem for the regulation of Military Bazars, and for the diſpoſal of the produce of ſuch taxes as may be levied on them by the authority of Government.

1st.—In conformity to the 2d, 3d, 4th, and 5th Articles of the 8th Section of the "Rules and Articles for the Better "Government of all of his Majeſty's forces," and to the 2d "3d and 4th Articles of the 7th Section of the Rules and Ar- "ticles for the better Government of the Officers and Soldiers "in the ſervice of the United Company of Merchants of

"England

" England trading to the East Indies" all officers commanding Forts, Stations, or Cantonments are prohibited from and after the 1st day of January 1803, from being engaged directly or indirectly, in levying, receiving or being concerned in any tax, impost, or receipt, from the Bazar, or from any article of supply; or receiving in any manner whatever any perquisite or emolument of command not expressly authorized by Government: and the Governor in Council publishes his determination that officers offending against this regulation, shall be brought to trial before a General Court Martial for a breach of the said Articles of war, as well as for disobedience of Military Orders, a determination which his Lordship announces his intention of having carried into effect without relaxation, under any circumstances whatever.

2d—The authority of officers commanding Forts or Cantonments over Military Bazars, or dealers of any description is hereby expressly limited, to the necessary means of preserving peace and good order, to the prohibition within the limits of their command of the sale of intoxicating drugs and liquors, to the extent that the health and discipline of the Troops may in their judgement require; and to the punishment of crimes strictly military which may be committed by the followers of the Army; and the Commander in Chief is requested to direct that, except in ordinary cases of riotous or disorderly conduct, the powers to be exercised by officers in command over persons coming under the description of followers of the army shall always be founded on the report of a Court of Enquiry, or the sentence of a Court Martial (as the case may be) regularly assembled to investigate the circumstances; and that the sentence or order which may be passed in consequence, shall be published in the Orderly Book of the Garrison or Cantonment.

3d—All disputes relative to property, all cases of civil injury, or matters relating to the general police of the country, belong exclusively to the jurisdiction of the Civil Magistrate; and Military officers shall not interfere therein.

4th—It is the intention and order of the Right Honorable the Governor in Council, that in all situations within the territories dependent, on the Government of Fort St. George, Rice, Butchers Meat, and all articles of food for the use of the Troops, shall be exempt from duties, or imposts, of whatever description, except by public authority: and it will be the duty of all Commissioned Officers, to report to the Commanding Officer, respectively, for the information of the Commander in Chief and of Government, any deviation from this order which may come to their knowledge.

5th—In order that no doubts may arise with regard to the

taxes

taxes levied by authority, it will be the duty of the Collector to furnish a list of authorized duties of each post within his districts to the commanding officer; who is hereby directed to post copies of the same for general information on the gates of the Garrison or public places of the Cantonment.

6th—The forcible seizure of sheep being equally improper and unnecessary where the market is known to be free, that practice is hereby expressly prohibited; in order however to prevent inconvenience from this material change of the present system of supplying sheep, particular instructions will be transmitted to the Collectors for the purpose of guarding against temporary deficiency.

7th—Taxes or revenues arising from Military Bazars shall be levied exclusively by the Collector of the district, on the same principles which regulate the ordinary collection of the revenue. Each Collector shall enter the revenues arising from military Bazars under a separate head in his Books, and at the expiration of each revenue year on the 11th July, the Board of Revenue shall report the total amount to Government, who will direct a distribution of this fund on the principles herein after detailed.

8th—The limits of the Military Bazar shall be determined by those of the Fort, Post, or Cantonment, according to the practice which has hitherto prevailed in those stations where the commanding officer has exercised a controling jurisdiction over the Bazar; and if any doubts should arise with regard to those limits, they shall be determined by reference to the Governor in Council.

9th—When Troops may be assembled for field service within the territories of *Fort St. George*, or when a subsidiary force cantoned or encamped in the territories of an Allied Power may be furnished with a separate Bazar with the sanction of such Ally; it will be the duty of the officer commanding to appoint an Officer to regulate under his authority the supply of the Bazar, and the duties on intoxicating drugs and other proper objects of taxation, such commanding officer shall from time to time appoint proper committees to examine and audit the accounts of the officer in charge of the Bazars, and the amount of the duties and customs thence arising shall be remitted to the General Treasury of *Fort St. George*, to form a part of the General Bazar Fund.

10th—Annually in the month of July, when a statement shall have been received of the amount so collecte dfrom Military Bazars, under the direction of the Board of Revenue, and of the amount remitted to the General Treasury from corps or detachments in the field, the Governor in Council will direct

the

the appointment of a committee of officers to report the proper distribution of the funds according to the following rules.

11*th*—The following officers shall be exclusively entitled to share in the distribution of this fund viz. Officers appointed by authority of Government to the command of Divisions, Districts, Garrisons, Cantonments, or field Corps or Detachments, to the exclusion of all officers Commanding Detachments from Stations or Corps in the ordinary routine of the service, without the express appointment of Government.

12*th*—Officers entitled to share in this fund, shall be distinguished according to the three following classes viz.

Officers Commanding.
1st, Divisions.
2d, Districts.
3d, Garrisons or Cantonments.

and the principle of distribution shall be as follows; the portion allotted to officers of the first class, shall be double the amount of that allotted to officers of the second; and the portion of Officers of the second shall be double the amount allotted to those of the third class. Officers in command of field detachments shall be classed by the committees of distribution in the first, second, or third class according to the force under their command; and shall be entitled to share double the amount allotted to officers of the same class in fixed situations.

13*th*—The distribution being approved by the Governor in Council shall be published in General Orders to the Army—and the payment provided for in the same manner as in a distribution of Off-reckonings.

These Regulations for the conduct of Military Bazars, and for appropriating the pecuniary advantages arising therefrom, shall be carried into effect from and after the 1st day of January 1803.

The Right Honorable the Governor in Council directs that the indents for cloathing for the years 1802 and 1803, shall be transmitted without delay to the Office of the Adjutant General.

His Lordship in Council, in order to facilitate the adjustment of claims for cloathing, has been pleased to establish the following regulations which are directed to be observed accordingly.

In all cases of casualty arising from the death, discharge, transfer to another Corps, or to the non-effective establishment of any Native Officer or Soldier, of Cavalry, Infantry, Pioneers, or Artillery Lascars, to whom cloathing may be due, the Officer commanding the corps in which such casualty occurs, shall draw from the Paymaster of the station, in separate abstracts for each year, accompanied by a roll of the names and rank of the persons to whom such cloathing is due, the value of such cloathing at the annexed rates, which he shall pay to the Officers or Soldiers discharged or removed, or to the heirs of deceased Soldiers on their receipts, prior to their quitting the Corps, -- Duplicates of such abstracts and rolls shall accompany the monthly returns of Corps to the Adjutant General's Office; and a General Roll of payments for the preceding year shall be annually transmitted from each corps and department on the 1st of January to that office.

The Paymaster of stations shall enter all payments made on account of arrears of cloathing to Native Troops in a separate account, a copy of which, accompanied by the abstracts as vouchers, they shall regularly transmit to the Military Paymaster General, who will carry the whole to the annual debit of the off-reckoning fund, for the year expressed in the abstract.

Officers in command of corps will understand that the title of Native troops to cloathing for any particular year, depends on the claimants having been on the strength of the Corps on the 31st of December of that year, without attention to broken periods :—and they will on this principle adjust the accounts and regulate the payments for arrears of cloathing.

When

When surplus cloathing may remain in the Regimental Stores, it is to be issued to the extent of supply for the purpose of satisfying claims for cloathing due to individuals quitting Native Corps, but in no case are Native Troops to be allowed to quit the Corps to which they may be attached, until the claims shall have been adjusted.

RATES of compensation proposed to be paid in lieu of CLOATHING to Men discharged or removed from Corps, to whom CLOATHING is due—and to the Heirs of deceased Soldiers.

6th—The above establishment shall be mustered monthly by the officer commanding *Seringapatam*, or by a staff officer authorized by him; and the Agent is to make a monthly return of this establishent to the Military Board.

7th—In addition to the establishment of Artificers &c. on Monthly Pay, (as detailed in the 4th Paragraph) the Agent is empowered to entertain on daily pay, such number of subordinate Artificers of various descriptions, as the extent and nature of the work in hand may render necessary.

8th—Daily entries of the number, description, and pay of Extra Artificers thus employed at the manufactory shall be inserted

ſerted in a book to be kept by the Agent for that purpoſe, and at all times open to the inſpection of the officer commanding *Seringapatam*. The agent to make weekly reports of the number of ſuch artificers daily employed, to the officer commanding *Seringapatam*, and monthly reports of a ſimilar nature to the Military Board.

9*th*—The pay of all occaſional artificers to be regulated by the eſtabliſhed rates of the ſtation, as certified monthly by the officer commanding *Seringapatam* and the ſuperintendent of the Police—whoſe certificate muſt accompany the abſtracts of the Agent.

10*th*—The ſalary of the Agent and the pay of his eſtabliſhment, occaſional and fixed (including the pay of the Company of Store Laſcars attached) ſhall be drawn by him in arrears from the Paymaſter of *Seringapatam*, on a monthly abſtract ſigned by the Agent and counterſigned by the officer commanding *Seringapatam*—The pay of the Conductor attached to be included, but drawn *in advance*. Each abſtract to bear annexed a declaration on honour by the Agent that the various payments charged in ſuch abſtract have been or will be bonâ fide diſburſed by him to the perſons, and for the purpoſes ſtated in the abſtract, and that he neither directly or indirectly has derived or will derive any benefit or advantage whatſoever from the ſame beyond the eſtabliſhed ſalary allowed to him by the regulations of Government.

11*th*—The Agent is authorized to draw from the Paymaſter of *Seringapatam* on an eſtimate which he will prepare on the 1ſt of every month, the ſum which may be neceſſary for the payment of occaſional Artificers to be employed during that month—The eſtimate to be ſubmitted to and counterſigned by the officer commanding *Seringapatam*, and the amount of advances when made are to be entered by the Paymaſter in a ſuſpenſe account, and carried to the perſonal debit of the Agent until regularly accounted for by him, in the ſettlement of his next abſtract for the pay of his eſtabliſhment.

12*th*—A ſimilar mode is to be adopted regarding the advances required when circumſtances may induce the Military Board to employ the Agent in the purchaſe of materials for the manufactory. His Bills for materials ſo ſupplied are to bear a declaration on honour ſimilar in effect to that required with the abſtracts for this eſtabliſhment, and the advances made are to be placed to his perſonal debit, until the Bill of the Purchaſes has been regularly paſſed for payment by the Military Board.

13*th*—Timber for the uſe of the manufactory ſhall be procured by contract for felling and piling in the woods ſuch trees as are of a proper quality and growth; and by purchaſe of ſuch

kind

kind of timber, as the forests do not produce on the borders of *Mysore* what is there felled will be removed to *Seringapatam*, and delivered to the Agent under the detailed Regulations for that branch of the department, which are hereunto annexed.

14*th*—Brass, Steel, Iron, and all other materials together with Tools for Artificers and such other implements required in the manufactory, as cannot be there made, shall be supplied to the Agent from the public stores, on quarterly indents to be prepared by him, countersigned by the officer commanding *Seringapatam*, and transmitted for sanction to the Military Board.

15*th*—When articles are required which cannot be furnished from the public stores, the circumstance is to be reported without delay to the Military Board, who will take measures for procuring them by other means.

16*th*—In all cases of supply either from the public stores or by purchase under authority, the Agent will be held responsible that the articles furnished are good and perfectly fit for the service--as it will be his duty to object against receiving any that are not of this description. On all receipts of stores of any kind, he must apply for a committee to examine and report on the articles tendered for the use of the department, this committee of which the Agent is to be a member, will be ordered on his application by the officer commanding *Seringapatam*, and its proceedings must be transmitted to the Military Board.

17*th*—The Agent shall keep regular books stating in the most clear and explicit manner the receipts, issues, and remains of materials of every kind, and he will be held responsible that, under a reasonable allowance for loss in working up, the quantity of materials expended corresponds with the articles fabricated and delivered into store. These Books shall be made up monthly, and a copy shall be forwarded quarterly to the Military Board, accompanied by a return of Tools, exhibiting under the several heads of serviceable, repairable and unserviceable the state of each—a return of articles prepared at the manufactory and delivered into store during the preceding quarter, and a statement of component part and unfinished work on hand.

18*th*—When the manufactory has been properly established, and a sufficient time for preparation has elapsed, it shall be considered as a fixed regulation that no timber shall be used in the construction of ordnance carriages or other articles of Military store, that has not been felled at least two years: nor shall any of the component parts of ordnance or other carriage be fitted together, until such parts shall have been blocked out in the rough and piled in that state to season, for at least six months.

19*th*—All ordnance carriages and other articles of Military Store prepared at the manufactory, shall be subject to the following inspection and surveys, viz.

1st—The wood works as clocked out, after having been piled six months to season.

2d—The component parts of wood, Iron and Brass, when ready to be put together.

3d—The wheels and other parts of carriage when fitted together, before the Tires of the wheels, bolts, screws, and other parts of Iron work are fixed and rivetted.

4th—The entire work when complete and ready for delivery to the *Commissary of Stores*, who must invariably be a member of these committees.

In these several stages of its progress, the Agent will apply to the officer commanding *Seringapatam* to order a competent committee of Survey to inspect the work, as often as the quantity ready for inspection may render it expedient.

20th—It will be the duties of the committees of inspection and survey to reject on each stage of preparation, such parts of carriages, or other articles of store produced to them, as they may consider objectionable, either from defective materials, or workmanship.—But it is to be clearly understood, that as the Agent is impowered and required to reject in the first instance all materials which are not of the best quality, and as it is his duty to see them put together in a proper and workmanlike manner, the reports of such committees in no degree relieve the Agent from his responsibility for the efficiency of all carriages and other articles of store, prepared by him.

21st—The reports of the committees to be delivered to the officer commanding *Seringapatam* for transmission to the Military Board.

22d—When ordnance carriages and other articles of Military Equipment prepared at the manufactory are finished, and have been approved by the inspecting committees, they shall be marked with the company's mark, the initials of the Agent's name, and the year of their construction, and delivered unpainted to the charge of the Commissary of Stores at *Seringapatam* on his receipts—Reports of all such deliveries shall be made monthly by the Agent to the Military Board.

23d—The various models now lodged in the Arsenal of *Fort St. George*, and the patterns of carriages in use under the presidency of *Fort St. George*, shall be delivered to the Agent at *Seringapotam*, and lodged in his custody together with patterns of the other articles of Military Store, which the manufactory at *Seringapatam* is ultimately intended to supply, from these patterns no deviation is to be made, unless authorized by the previous sanction of the Military Board.

24th

24th—The number of carriages to be constructed monthly by the agent, will be fixed by the orders of the Military Board, and the determination of the Board on this point, will necessarily regulate the number and nature of extra Artificers, which the agent will be permitted to employ—but as it must be considered as a rule never to be departed from, but under the most pressing exigency of Service, that no ordnance carriages, ammunition Boxes, or other articles of that nature are to be *put together* during the rainy season, the agent will so arrange the distribution and employment of his Artificers, as to prepare during the rainy months the Iron work and other component parts, in such proportions, as may enable him to put together and finish in the dryest season, the number of carriages required in the year, on the average computation of the number ordered to be made each month.

25th—In order to ascertain the relative expense of the proposed system, compared with the former charges under a system of contract—the Paymaster of *Seringapatam* will furnish to the Secretary of the Military Board, an annual statement on the 1st day of March, exhibiting the amount of all payments made by him on account of the gun carriage &c. manufactory during the preceding year, this account to include the agent's salary—Pay of his department fixed and variable—Bills of contractor for Timber, and amount of purchases made on account of the manufactory.—From this account and the statement of issue to the manufactory from the public stores, the Secretary of the Military Board shall prepare and annually submit to the Board an account, carrying the aggregate amount of charges to the *debit*, and the computed value of articles supplied to the stores and of stock on hand to the *credit* of the manufactory—The value of articles which have been supplied being estimated at the average rate of their cost under the system of contract or agency for the last ten years—a table of which shall, for that purpose, be prepared by the Secretary of the Board.

26th—In order to simplify this comparison, the business of the manufactory must for the first two years be confined to the construction of new ordnance carriages and Carts, which from the chief items of expence in this department—should the system be found in this particular to answer expectation, the provision of all the smaller articles, and the repair of carriages for the supply of the *Mysore* and adjacent districts, may be added to the duties of the agent with equal if not superior benefit to the public interests.

27th—As Government have been pleased to grant a very liberal allowance to the Agent, and considerable confidence is reposed in him, these advantages are necessarily connected with

proportionate

proportionate responsibility, on his part and that responsibility for the proper and efficient conduct of every branch of the important department confided to his management, is hereby declared to attach to him, in the fullest manner.

Regulations for the Provision of Timber for the Gun Carriage manufactory at *Seringapatam*.

1st—Timber for the consumption of the manufactory, shall be annually provided by contract, to be entered into under the authority of the Military Board.

2d—The contractor shall engage to cut wood of the best quality, and of the kind and dimensions prescribed by the Military Board.

3d—A Conductor with a small party of Lascars and Sepoys shall be employed in Superintending the cutting of Timber, and the Conductor shall continue in charge of it while it remains in the forest.

4th—The Timber after it is felled shall be squared, numbered, marked with the scantling of each piece, and the date of its being cut, and collected into Piles in stations of the forest accessible to the Company's carriages and cattle, by the contractor under the direction and inspection of the Conductor.

5th—After the Timber is collected into Piles, it shall be delivered over by the contractor to the conductor, who will grant receipts for the quantity transferred to his charge.

6th—Previously to the collection of the Timber into Piles, the Conductor shall ascertain that it is of the described quality and dimension, squared, marked and numbered, and that the situation of the proposed Pile is accessible to the Company's carriages and cattle. He is to enter in a register the number of Beams received, the dimensions of each, and the number and date marked upon it.

7th—The Conductor shall prepare copies of this Register in duplicate—One to be transmitted to the agent, the other to the officer commanding at *Seringapatam*.

8th—The Contractor shall be paid by the Paymaster of *Seringapatam* on his Bill for the quantity of Timber felled and delivered, agreeably to contract, supported by the Conductor's receipts, such Bill being first transmitted by the Paymaster to the Military Board, and passed by the Board's authority for payment.

9th—When the Timber piled in the forest, is in some degree seasoned, the Conductor shall report its state to the agent, who will indent on the Officer in charge of public cattle for Bullocks to convey it to *Seringapatam*.

10*th*—On the arrival of the Timber at *Seringapatam*, the agent will receive charge of it, and place it in Piles to ſeaſon.

11*th*—The Agent will be held reſponſible that the quantities brought to account at the manufactory ſhall correſpond with thoſe entered on the Conductor's regiſter; ſhould there appear to be any difference either in quantity or quality on its arrival at *Seringapatam*, the agent will report the circumſtance to the officer commanding that garriſon, who will order a committee to aſcertain the cauſe, and forward its proceedings to the Military Board.

12*th*—The Agent ſhall keep a ſeparate account of Timber received, and iſſued, writing off from his ſtock in hand the quantity iſſued from time to time for the uſe of the manufactory, on the previous authority of the Military Board; to whom he will ſtate the quantity required for the probable conſumption of the department, as often as he may find it expedient to do ſo.

SENTENCE.—The Court having maturely considered the evidence brought forward in support of the prosecution as well as what the Prisoner Subidar Peermaul Naik, has urged in his defence, is of opinion, he is guilty of the charge preferred against him; viz. G. O. By Government.

1st—The Right Honorable the Governor in Council having considered it to be expedient to substitute definite regulations in place of the various orders issued at different periods relative to the payment of family certificates, accordingly establishes the following regulations on that head, and directs all former orders and regulations on the same subject to be cancelled from the publication hereof.

2d—When the Commander in Chief shall deem it necessary to sanction the issue of certificates to the families of any Corps ordered for field service, the same will be declared in General Orders or signified to the officer commanding the Corps and the Military Auditor General; the certificates are then to be drawn out according to the annexed form No. 1. Signed by the officer commanding the Troop, or Company, and countersigned by the officer in the actual command of the Corps, and the sum granted is invariably to be expressed in the currency established for Military disbursements under this Presidency, viz. in Star Pagodas, Fanams, and Cash.

3d—Officers are to make out in triplicate, correct rolls of all certificates so granted in their respective Troops, or Companies, observing that seperate rolls must be made for each station where the certificates are payable; headed according to form No. 2. One of these to be delivered to the Paymaster of the Army or Detachment, for his guidance in making the necessary deductions, the other *two* to be transmitted by the officer commanding the Corps to the office of audit, from whence *one* will be passed to the station Paymaster, having been previously authenticated by the signature of the Military Auditor General.

4th—Accurate copies of the above rolls and of all casualties are to be preserved by officers in charge of Troops or Companies, which are to be inspected occasionally by the officer in the command of the Corps, and in case of the removal of any officer from a Troop or Company, it shall be considered the duty of the commanding officer to ascertain that the *Rolls* and *Lists of casualties* are delivered over in a correct state to the officer succeeding to the charge.

5th—Officers commanding Troops or Companies, are to make out *duplicate* Rolls of casualties as they *occur*, which are to be presented for the countersignatue of the officer commanding the Corps

Corps &c. who will forward them to the office of audit without loss of time. If it shall be necessary at one time to report several casualties and the certificates are payable at different stations, the communications are to be made in separate and distinct rolls which are invariably to be headed "Casualty Roll of family Certificates payable at *(here insert the station or its dependency)*

6th—The notification of casualties being thus made in duplicate to the office of Audit, *one* copy when authenticated by an official signature will immediately be passed on to the Paymaster whom it concerns.

7th—In order to prevent confusion, it is further to be understood that all communications on the subject of family payments, whether withdrawing such payments or granting them, are also to be made in separate and distinct rolls headed as occasion may require, either Casualty Roll of Family Certificates &c. or List of Family Certificates &c.

8th—As it will frequently happen, that officers commanding Corps in the field may have the means of giving notice of casualties to the Paymasters of stations, where a part of the families reside sooner then by the circuitous route of the Presidency, they are to consider it their indispensable duty to forward such notice direct, as well as to the Military Auditor General; and the Paymasters are to discontinue payments upon receiving such communications from commanding officers, altho' they may precede for a considerable time those which may be sent from the office of Audit.

9th—When a family certificate has been once granted, it is not to be recalled, except in cases of actual casualty by death, desertion &c. or unless on good and sufficient reasons being assigned by the party to the commanding officer of the Corps, who will discourage as much as possible, all such applications as tending to introduce inevitable confusion, and in all such cases the stoppages account of the recalled certificates, are not to cease until they are presented at the office where the Corps &c. is paid. The Paymaster will then be able to settle any arrears that may appear to be due, transmitting the original certificate as the voucher upon which such arrears has been paid.

10th—A list of all casualties reported to the office of Audit in the course of the month, is to be delivered to the Paymaster with the abstracts in which the deductions on account of family certificates are made, and at the same time a *Statement* signed by the officer commanding the Corps, according to the annexed form No. 3. shewing the amount of stoppages to be made from each Troop, Company &c. on account of family certificates, payable at the different stations of the Army for that month.

11th—As soon as the monthly payments are completed, the Paymaster of the Army or detachment shall compile from these regimental vouchers one general statement—Form No. 4. which shall exhibit the total amount of stoppages made by him in the course of the month from the different corps &c. within his range of payment, and this statement is to be transmitted with every necessary explanation annexed, for the information of the Military Auditor General.

12th—Paymasters of stations where the families reside, are on no account whatever to pay any certificates which are not included in the rolls officially transmitted to them from the office of Audit: if a certificate shall be presented for payment drawn according to the prescribed form, and with the proper signatures, but of which the Paymaster has received no regular intimation, he will forward a copy to the Military Auditor General that the necessary authority for the payment of it, may be obtained without loss of time.

13th—Paymasters of stations will be held responsible that the payment upon all certificates are discontinued after the receipt of casualties at their respective offices; and to enable the Military Auditor General to ascertain that due attention has been paid to this regulation, each Paymaster is required to transmit to the office of Audit on the 1st of every month, a list of the casualties which may have been communicated to him in the course of the month preceding, and the particular periods when such communications reached his office, are to be specified.

14th—Similar Lists of casulties are to be transmitted by Paymasters of stations every month to the Paymaster of the Army or Detachment in the field, by whom the Corps to which the casulties relate are paid, who will compare them with the list of casualties in his office by which the stoppages for the same month have been regulated, and report immediately any variation he may observe to the Military Auditor General, with such information as may be necessary to explain the cause of it.

15th—Paymasters of stations are directed to furnish the Paymaster of the Army or Detachment in the field every month, with a statement exhibiting the amount paid by him to the Families of each Corps, department &c. in the month preceding: transmitting at the same time duplicate of such statement to the Military Auditor General, who upon comparing it with the stoppages brought to account by the Paymaster of the Army &c. will see at one view if the totals correspond, and can adopt the necessary measures for adjusting any difference that may have arisen between the amount of payments and stoppages.

16th—All Payments on account of family certificates are to be entered in detail in a seperate disbursement, supported by corresponding

ponding rolls for the purpose of being audited in the same regular manner, as other military charges for effecting which, they are to appear under the head "Disbursement, on account of Family Payments" in the same order of arrangement as is prescribed for all other disbursements, and the Military Paymaster General will pass no sum to the credit of any Paymaster on account of family payments, which shall not have been audited and passed agreeably to the regulations and orders of Government, established for the conduct of the Office of Audit.

17th—The Paymaster of the Army or Detachment in field, is to enter in his monthly disbursements the full amount of the pay and allowances of the Troops; to give credit in his abstract of receipts and disbursements for the amount of stoppages on account of family payments.

18th—Officers upon field service are authorized to grant family certificates, payable at such station as they may judge to be most convenient, but it is to be understood, that these certificates are to be invariably recalled, when the officers who granted them return into garrison.

19th—The communications relative to the recall of officers family certificates, are to be made through the office of the Military Auditor General; and Paymasters are not to discontinue their deductions from the abstracts of Officers, who have recalled their certificates, until they shall have received intimation from the Military Auditor General, that the payment on these certificates has ceased.

G. O. BY GOVERNMENT.

The following compilation of medical regulations prepared under the authority of the Commander in Chief, being calculated to define and simplify the conduct of the duties of the medical department, and to provide rules for the conduct of that department during peace and in the field, the Right Honorable the Governor in Council is pleased to publish it, and to direct that all former medical regulations not consistent with those now published, shall be considered to be abolished.

REGULATIONS IN TIME OF PEACE.

1st—The Medical Board shall Superintend under the authority of the Commander in Chief, the whole of the Military medical department under the Presidency of *Fort St. George.*

2d—

2d—To assist in the performance of this important duty, Superintending Surgeons to be selected from the Head Surgeons or seniors of the establishment when properly qualified, shall be appointed to exercise medical superintendence and controul under directions of the Medical Board and Commander in Chief, in the several principal military divisions of the Army.

3d—Superintending Surgeons being attached generally to the divisions in which they are doing duty, will be relieved from the immediate charge of hospitals, and the situation of general hospitals being found to be no longer necessary in the service, is accordingly abolished, excepting one at the Presidency, which is retained, and placed under the immediate superintendence of the Medical Board.

4th—A Garrison Surgeon shall be permanently appointed to each of the principal military stations of *Masulipatam*, *Vellore*, *Trichinopoly*, *Seringapatam*, *Cannanore*, and *Bellary*, placed in charge of a garrison hospital for the reception of the sick of all descriptions who may not belong to Corps, or be provided with medical assistance, and allowed to draw for the European Invalids and Pensioners, Natives, Invalids, and all other troops doing duty in the garrison, who may be put under his medical charge (details from European regiments excepted) at the rate of 60 Cash per day, and 20 Cash in medicine for each European, and 4 Pagodas per hundred for the natives.

5th—The Garrison Surgeons of the above stations shall each be permitted to draw a monthly allowance of 20 Pagodas for medical establishment.

6th—The Garrison Surgeons of *Masulipatam*, *Trichinopoly*, *Seringapatam*, *Cannanore*, and *Bellary*, shall be placed in charge, and regulate the receipts and issues of the medical stores for the divisions to which they are respectively attached, under the inspection and controul of Superintending Surgeons; and shall be entitled to draw on that account, an allowance of 30 Pagodas per month for stationary and office establishment.

7th—This regulation rendering the situation of deputy Medical Sorekeeper unnecessary, that appointment is directed to be abolished.

8th—The general order of the 4th December 1793, directing that "for all stations of European Invalids and Pensioners, of "whatever number, and for all detachments and garrisons com-"posed of effective Europeans not exceeding two hundred men, "a fixed monthly allowance shall be granted to the Surgeon "of the garrison, station or detachment for victualling, cloath-"ing, country or bazar medicines, and every hospital ex-"pence, Europe medicines excepted, for each European on the "strength of the garrison or detachment, the sum of 30 Fanams

"per

" per month, when it exceeds the number of 100 men, and the " sum of 45 Fanams or one Star Pagoda, when the number of " men exceeds fifty, and does not amount to one hundred, and " the sum of 60 Fanams or one Star Pagoda, and fifteen Fanams " when the number does not amount to fifty," is repealed, and in lieu of those allowances 60 Cash per day, and 20 Cash in medicine is to be drawn for each individual of the above descriptions (details from European Regiments excepted) by the Surgeon in charge; besides the usual Stoppage of 2 Fanams 40 Cash per day, to be received from the pay of each man in hospital; and for each European Pensioner when in hospital, the smallness of whose pay will not admit of any stoppage being made from it, an allowance of 2 Fanams 40 Cash shall be drawn by the Surgeon from the Paymaster in a bill certified by the commanding officer of the station.

9th—The expence of sick Europeans occasionally left in places at a distance from their regiment must be defrayed by their regimental Surgeon, who will draw the regulated allowance for every man present in *India* with his corps; the Surgeon in whose care the absent sick remain, shall receive the hospital stoppages, and charge besides the regimental Surgeon with the additional expences incurred on their account; and in case of detachments being sent from European regiments, the Surgeon will furnish and be at all times responsible for such necessaries and servants, as may be requisite for the use of the sick and wounded.

10th—It having been found from experience that the allowance of 8 Fanams per man per day, bears upon an average a just proportion to the amount of expences actually incurred in the victualling, cloathing &c. of European sick, it is directed that Surgeons at the head of fixed hospitals, shall be invariably authorized to charge 8 Fanams for such sick Europeans as may be placed under their care, drawing that allowance from the Paymaster of the station in two bills for each regiment, accompanied by rolls specifying the names and rank of the men, and the companies to which they may be attached, viz. One bill for 5 Fanams 40 Cash, and the other for 2 Fanams 40 Cash for each man so situated.

11th—These bills will be forwarded by Paymasters of stations to the Military Paymaster General; who in the case of the Company's troops, is directed to transmit them to the Paymaster of the garrison, where the corps to which the sick respectively belong may be stationed; in order that their amount may be deducted from the abstracts of the Surgeon, and the officers charged with the payment of companies, according to the stated proportions, and in the case of His Majesty's Troops, the Military Paymaster General is directed to forward the bills through the

King's

King's Deputy Paymaster General, to the Paymasters of regiments by whom the requisite deductions will be made, and brought to account.

12th—Detachments or parties of recruits belonging to regiments not on this Establishment, which may be placed in garrison at *Fort St. George*, or any other station under this Presidency, are directed to be drawn for at the rate of 60 Cash per man per day, and 20 Cash in medicine by the Surgeon ordered to take medical charge of them, who will defray the hospital expences of the sick.

13th—When sick soldiers not belonging to any detachment, or party of recruits, nor attached to any regiment upon this establishment, shall be placed in the general hospital at the Presidency, or at any subordinate hospital, the Surgeon in charge of them, shall draw from the Paymaster an allowance of 8 Fanams per man per day on their account.

14th—In consideration of the divided state of the corps of Artillery, the operation of the 9th Paragraph of this regulation as far as it relates to the mode of drawing for these corps, and defraying the expences of their absent sick is suspended, the Surgeons of Artillery will therefore in future respectively draw for the number of men present for duty at Head Quarters at the usual rate of 60 Cash in money, and 20 in medicines, and the Surgeons or Assistants doing duty with detachments from these corps, will draw from the Paymaster 1 Fanam per man per day, according to numbers in lieu of all medical charges.

15th—In addition to the present allowance of 4 Pagodas per month for every hundred men, the following establishment of medical servants, is allotted to each Battalion of Native Infantry, to be regularly returned and mustered, and drawn for in abstract by the Surgeon.

1 Dresser at 4 Pagodas per month.
1 Ditto, at 3 Pagodas per month, (in the field.)
2 Toties at 2 Pagodas each—ditto.—ditto.

16th—The appointment of Black Doctor to a Battalion is discontinued, such of the Black Doctors as are qualified for the situation are directed to be appointed dressers.

17th—The situations of garrison Surgeon of *Chicacole*, *Palamcottah*, *Madura*, *Dindigul*, and *Chittledroog*, being no longer necessary from the small number of troops doing duty at those stations, are abolished, and the senior regimental Surgeons are to be placed in medical charge of those garrisons drawing 15 Pagodas per month for medical expenditure, and the regulated allowances for the European and Native troops of all descriptions under their immediate care.

18th—A considerable expence having been unnecessarily incurred by the practice of dispatching for the use of corps, European medicines in an unprepared state, it is directed that this practice shall be discontinued, and that the medicines to be in future issued from the office of the Medical Storekeeper of *Fort St. George*, or from the medical stores at the subordinate stations, shall be compounded and prepared for use under the superintendence of the officers in charge of the stores previously to their being issued by them.

19th—In consequence of this regulation, the servants hitherto employed with corps for the purpose of compounding European medicines will be no longer required, and are to be accordingly discontinued.

20th—The allowances hitherto granted to Surgeons of European regiments for the carriage of hospital cotts with the bedding and cloathing, on the occasional removal of the regiments, are ordered to be discontinued, in those cases, where an exchange shall take place, in the stations of European corps, the Surgeons may have the means of arranging mutually an exchange in the property of the hospital cotts, but when circumstances shall not admit of such an arrangement being effected, the expence incident to the movement of the cotts is to be defrayed by the regimental Surgeons.

21st—It is directed that the expence attending the carriage of European medicines in the field, shall be in future defrayed by the regimental Surgeons of European corps from their present allowances, and that the Medical Storekeeper at the Presidency shall on the occasional movement of corps during peace, provide for the carriage of bazar and country medicines, without any further allowance on that account.

22d—It appearing that the duties of superintendence and controul over the whole medical department in the province of *Malabar* can be exercised by one Superintending Surgeon, the appointment of Superintending Surgeon of the Southern Division of *Malabar* is annulled, and the medical authority of the remaining Superintending Surgeon is extended over the whole of that province.

23d—It will be the especial duty of Superintending Surgeons of divisions by a frequent personal inspection of all regimental or other hospitals within the limits of their range, to ensure the most unqualified attention to their professional duties on the part of the Subordinate Surgeons and Assistants, to inspect with particular attention the journals of their medical practice, to correct the errors of experience or deficient medical knowledge by instruction to those who require it, to enforce attention in the compilation of the Journals of subordinate officers, to extract

from

from them, such medical facts as appear to merit notice from their uncommon or important nature, to report the result of their inspection and superintendance, the state of the sick, and the conduct of the subordinate Surgeons and Assistants, monthly to the Medical Board, accompanying this general report by the original journals of the subordinate medical officers, pointing out to the Board's observation, any remarkable cases and transmitting copies of all orders, comments, instructions, approbation or censure, which they have thought proper to convey to the subordinate medical officers in the course of the preceding month.

24th—It shall be the particular duty of the Medical Board to superintend the management of all hospitals, to examine the reports of the superintending Surgeons, to enforce their attention to the duties of the division under their respective superintendance, to convey through them such orders and instructions as the nature of the reports which they receive, or the orders of Government and the Commander in Chief may require, to inspect the journals of all medical practitioners, to give such directions for the regulation and improvement of their practice as such inspection may point out as necessary, to comment on erroneous practice, to check every appearance of negligence or impropriety; to encourage merit by approbation; and correct inattention by reproof.

25th—It will be considered the duty of the Medical Board, after an accurate inspection of the medical journals, to certify on each that it has been examined, to annex the comments originating from such inspection, and to preserve with care and under a clear methodical arrangement, the original journals, reports, and observations of medical practitioners under their orders. The Board from the mass of information obtained will select such cases as appear uncommon in their nature connected with interesting medical facts, or exhibit the results of particular practice digesting them in the form of reports and observations on medical facts, to be recorded on their proceedings, copied, and circulated to the superintending Surgeons for their information, and that of the subordinate medical officers under their authority, and transmitted to the Medical Boards of the other Presidencies.

26th—The office of immediate superintendence at this Presidency will be performed by the Medical Board, the 2d and 3d members of which Board will visit the Hospitals in rotation weekly, and receive the monthly journals and reports from the Surgeons in charge of them.

27th—The Medical Board will make a monthly report to the Commander in Chief, for his and the information of Government

vernment, of the sick of the Army in the form prescribed by that board for the Surgeons in *Malabar*, substituting for the medical remarks which it contains, such observations as the reports they receive may enable them to give of local causes of diseases, within the probable power of Government or the Commander in Chief to diminish or remove, and stating how far the medical officers attached to stations and corps in the performance of their medical duties are entitled to recommendation for attention and talent, or to censure, from the absence of those claims to favourable notice.

28th—The Medical Board will continue to check the Indents, and superintend the expenditure of medicines and medical stores to the full extent of their present powers over that branch of the medical system; to the performance of which duty, the present alterations in the regulations of the medical service, will give additional facility.

29th—The Senior Surgeon in any garrison or station shall be authorized to inspect the hospitals of the junior Surgeons in that garrison, and report his observations to the Superintending Surgeon of the division in which he is placed.

30th.—As it is impossible that the practice of military hospitals can be properly conducted, unless the Surgeons keep accurate journals of their practice, and as such journals alone can afford to the Medical Board and superintending Surgeons the means of appreciating the capacity and attention of subordinate officers when removed from their personal inspection, each Surgeon or Assistant in medical charge of hospitals, garrisons, military stations, regiments, battalions, or details of troops shall keep.

1st—A journal of his practice in which the name, age, general constitution, disease, and treatment, of his patients shall be regularly entered and fully detailed, together with the day of their respective admission, discharge, or dead.

2d—A Register agreeably to form No. 1 serving as an index to the journal.

3d—An abstract of diseases to be annexed to the register as by form No. 2, and

4th—A return of the expenditure of medicines and wine, founded upon the registered prescription entered on the journal, and exhibiting the receipts, issues, and remains, of each description of medical stores, in the course of the month.

31st—A copy of the journal and reports shall be transmitted on or before the 20th day of each month, by Surgeons and Assistant Surgeons (with the exception already stated of those at the Presidency) to the superintending Surgeon of the divisions when in garrison or cantonment, and to the senior staff Surgeon of the

the army or detachment when in the field, accompanied by such general medical observations as may result from the occurrences of the month, as may be calculated to elucidate the local causes of prevalent diseases, or in any way lead to the extension of professional knowledge.

32*d*—That part of the general order of the 14th April 1802, which directs that "all recommendations for the appointments "of the Surgeons or Assistant Surgeons to corps or application "for furlough, shall be in future stated to his Lordship in "Council by the Commander in Chief" is corrected, and it is ordered that such appointments and furloughs shall be regulated by the authority of the Commander in Chief, agreeably to the rule observed in the case of all other military officers, without being submitted to the sanction of Government.—It is further ordered that all recommendations for promotion in the medical branch of the military service, and for the appointments of Surgeons to divisions, hospitals, and stations, shall be submitted to the Governor in Council by the Commander in Chief.

33*d*—This order is not intended to lessen the authority of medical superintendence and controul vested in the Medical Board and superintending Surgeons, over the subordinate part of the medical Service, and the Surgeons attached to Corps will accordingly continue to obey such orders and instructions regarding their professional duties, as they may receive from their superior officers of their department.

34*th*—When leave of absence is granted to a Surgeon or Assistant Surgeon, the circumstance is to be reported without delay by the superintending Surgeon of his division to the Medical Board.

The indentures of Assistant Surgeons arriving from *Europe*, will be delivered to the Medical Board, and submitted by that Board to the Commander in Chief, to be laid by him before Government.

Regulations in the Field.

EUROPEAN CORPS.

1*st*—Surgeons of European Regiments in the field, shall have entire charge of the sick of their respective Corps in regimental hospital, and in order to enable them to defray the expence of victualling, cloathing, servants, carriage of European medicines, instruments and all hospital charges attending the sick, they are to draw 60 Cash a day for every man belonging

10th—The field Apothecary shall be allowed a Conicopoly at 10 Pagodas per month, to assist in keeping his accounts, and 6 Coolies at 2 Pagodas per month each, for pounding the mortar, preparing and packing medicines.

12th—The Surgeons of the field hospitals shall be supplied with Europe instruments and medicines from the public stores in camp, on regular indents, but country and bazar medicines for the sick in such field hospitals, shall be provided at their own expence, out of the allowance made to them for the care of the sick under their charge.

13th—The field Apothecary to indent on the Medical Storekeeper for a supply equal to three months expenditure of European medicines and instruments, for the use of the whole army.

14th—In addition to the quarterly supply of wines and country medicines carried by the regimental Surgeons, a further three

three months supply of these articles in advance to be placed in charge of the field Apothecary, and issued on quarterly indents to the respective regimental Surgeons, when the period to which they will be supplied on marching shall be expired.

15*th*—The medical storekeeper is to provide at the expence of Government in the first instance, and to forward to the field Apothecary, a supply of Europe medicines and instruments, Hospital cloathing, servants, wines, and country medicines, calculated as equal to the consumption of a certain number of men for a given length of time, according to the instructions which he shall receive from the Commander in Chief.—These supplies to be carried and the servants wages defrayed at the public expence, until it may be found necessary to establish a field hospital, when the whole or such a portion of the servants as according to the number of sick may be required will be delivered to the Surgeon appointed to the charge of the field hospital, on whom the payment of their wages will subsequently devolve. The wines, country medicines, and hospital stores, will also be issued to him by regular indent on the field Apothecary, to whom the hospital Surgeon will pay the amount according to the rate charged to the Honorable Company by the medical storekeeper, with an advance of 10 per cent on account of charges.

18*th*—The indents made on the field Apothecary by the Surgeon placed in charge of a field hospital for instruments and Europe medicines, on account of the sick in such field hospital, shall be regulated by the number of patients under his charge like all other indents of the same nature subject to the future audit and controul of the Medical Board at the Presidency,—

these

these indents are therefore to specify the number of sick in the field hospital at the time, and the period to which the articles indented for are calculated to last for a given number of men, which information together with monthly returns of the number of sick daily in the field hospital to be transmitted to the Medical Board by the field superintending Surgeon, will enable that board to judge of the extent to which such supplies should be admitted, and it is also to be understood that all indents from the hospital Surgeon on the field Apothecary in camp, are to be submitted to the inspection of the Commander in Chief after having the sanction and countersignature of the field superintending Surgeon.

19th—When a patient shall be removed from a regimental to a field hospital he is to be no longer included in the daily indents for provisions, but dry batta at the rate of 3 Fanams 30 Cash per day is to be drawn by the hospital Surgeon with the usual stoppage of 1 Fanam 40 Cash, in addition to which the Surgeon in charge of a field hospital, is to receive from the regimental Surgeon 5 Fanams per man per day, for which the sick are to be furnished with every necessary article, europe medicines and instruments excepted, which are to be supplied on indent as already directed.

21st—The field hospital Surgeons monthly charge against each regimental Surgeon to be certified by the Commanding Officer of the corps as corresponding with the number of sick and the days they were in hospital, and to be then sent to the Paymaster of the Army, in order that the amount may be deducted from the abstracts of those Surgeons respectively.

28th—For such Sepoys, Gun Lascars, and Pioneers as may be so materially wounded, as to require in the opinion of the Commanding officer of the corps particular attendance, the Surgeon under whose charge they may be placed shall be allowed to draw (and a half fanam per day for each man until he is cured.—The bill for this charge is to be accompanied by a bill descriptive of their wounds, to be certified by the officer commanding the corps or station.

29th—Surgeons of Native Corps to draw in the proportion of one cooley for every 100 men, for the carriage of instruments and medicines of every description.

30th

30th—As on many occasions it will be impossible to procure in camp, wines, spirits and the other articles coming under the denomination of country medicines, Surgeons of Native corps will be allowed to purchase from the field Apothecary those articles, at the same rate at which they will be issued to the Surgeons in charge of field hospitals.

31st—In order to provide for the care of the native sick who may be left behind their corps upon its being ordered into the field, or to march to a distant station, the Right Honorable the Governor in Council is pleased to direct that a list of the men who may be so situated shall be sent by the officer commanding the corps to the commanding officer on the spot; or if proceeding from a cantonment where there are no other troops, to the commanding officer of the nearest station; in either case the men who require medical attendance are to be placed in charge of the Surgeon or Assistant Surgeon of such station, who will be permitted to draw 40 Cash per day for each man actually in hospital, on account of medicines and attendants until he is sufficiently recovered to do duty at the station where he may be; should no opportunity occur at the time for his joining the corps to which he belongs; but the bill or abstract of the Surgeon or Assistant Surgeon for this allowance, is to be countersigned by the commanding officer of the station, who is to certify thereon, that the number of men drawn for, were actually attended and supplied with medicines for the number of days charged, and is to take the earliest opportunity of forwarding the recovered men to their corps.

32d—When it may become necessary to order any of the native sick into a field hospital, the Surgeon in charge of such hospital, shall be allowed to draw 60 Cash per day for each man, while in the hospital under the certificate before specified.

33d—The whole public carriage of the sick of the Army to be under the entire management and controul of the field superintending Surgeon, one head Writer and 1 Dooly Maistry to be allowed him, to assist in performing this essential duty.

G. O. By the Commander in Chief.

In consequence of various references to authority of the Commander in Chief regarding the right of officers not holding the rank of Lieutenant Colonel to draw the batta of a superior rank to that which they regimentally hold, when in the temporary command of corps, his Excellency is pleased to publish the following regulation for the future guidance of officers so situated :—but, it is to be clearly understood that this definition of the title of officers to superior batta, *has no retrospect*.

The allowance of superior batta to officers under the rank of Lieutenant Colonel holding the temporary command of corps, is intended by Government to compensate for the additional expences incidental to such temporary command ;—and it is therefore invariably to be drawn by the senior officer under the rank of Lieutenant Colonel actually present commanding and doing duty with the corps, whether in a collected or divided state ; *not* by the senior officer appointed to the corps, when *absent* from it by leave, on detached duty—from sickness, or from any other cause ; if such absence shall exceed three days.

The abstracts of officers becoming entitled to superior batta from the occasional absence of a senior officer, for any period between the monthly returns of the corps, to be countersigned, and such temporary command certified, by the officer commanding the garrison or station, to warrant payment.

The orders of the 22d December 1801, having in some instances been misunderstood, the Commander in Chief thinks proper to publish to the Army, that altho' the senior officer of a corps

on occasions of temporary absence, from whatever cause, retains the power of giving orders to the junior officer exercising temporary command in his absence, for the inferior arrangement and discipline of the corps; yet, the senior officer actually present and doing duty with it whether in a collected or divided state, shall sign the returns, and draw (if under the rank of Lieutenant Colonel) the superior batta annexed to the command of the corps.

The proceedings of a General Court Martial held at *Trichinopoly* the 27th day of December 1802, by order of the officer commanding the southern division of the army (under authority from the Commander in Chief.—) and of which Lieutenant Colonel Picton was president, having been approved, and confirmed, the following parts are published to the army.

CHARGES

CHARGES.—Exhibited against Mr. Benjamin Humpage.

Mr. Benjamin Humpage, Assistant Surgeon of the 2d Battalion 13th Regiment Native Infantry this day ordered by me under arrest, on the following charges.

1st.—For having written an improper and disrespectful letter dated the 16th instant to the Adjutant, Lieutenant Whyte, in consequence of a message from me his immediate commanding officer, sent by that officer to communicate to Mr. Humpage, the regimental order published the 8th day of February 1802 (under the authority of the Colonel of the regiment) as requiring his attention.

2d.—For frivolous, vexatious, and disrespectful conduct towards me his immediate commanding officer, while he was in attendance on me, in inspecting the hospital and sick of the corps and garrison, on Sunday the 17th instant, followed up by very improper Letters written by him to me, and to the Adjutant for my information from the 17th instant to this day inclusive.

3d.—For a neglect of duty in disobedience of the standing orders of the Battalion 14th Article under the head, of "hospital and Sick," and of the Battalion order dated the 15th March 1802, and contumaciously persisting in the same, notwithstanding the order of the 17th instant, positively directing an immediate compliance, under the frivolous and unbecoming pretext that the orders which he has received from Government, relative to the sick in his charge, are of that nature, as to take up the whole of his time, and that consequently the Battalion orders must be neglected he not being able to execute the former.

His conduct in these instances being to the prejudice of good order and military subordination.

DINDIGUL, (Signed) JAMES INNES, *Lieutenant Colonel.*

29th *October*, 1802. *Commanding 2d Bat. 13th Nat. Regt. and Dindigul.*

(Signed) FREDERICK PIERCE,

Deputy Adjutant General of the Army.

SENTENCE.—The court after mature deliberation and a full consideration of all that has been advanced in evidence in support of the charges, and also what the prisoner Mr. Assistant Surgeon Humpage has urged in his defence, are of the following opinion viz.

That the prisoner Mr. Assistant Surgeon Humpage is not guilty of the crime exhibited against him, as set forth in the first article of the charge, viz. "Having written an improper "and disrespectful Letter dated the 16th of October to the Adjutant, Lieutenant Whyte, in consequence of a Message from "Lieutenant Colonel Innes his immediate commanding officer, sent by that officer to communicate to Mr. Humpage "the regimental order published the 8th of February 1802 "(under the authority of the Colonel of the regiment) as requiring his attention."—and they do therefore acquit him of the same.

2d—That the prisoner Mr. Assistant Surgeon Humpage is not guilty of the crime laid to his charge, as set forth in the 2d article of the charges exhibited against him, viz. "frivolous, "vexatious, and disrespectful conduct to Lieutenant Colonel "Innes his immediate commanding officer, while he was in "attendance on him in inspecting the hospital and sick of the "corps and garrison on Sunday 17th of October, followed up "by very improper Letters written by him to Lieutenant Colonel

" Colonel Innes, and the Adjutant for his information from " the 17th October to the 19th of the same month inclusive," but they are of opinion that his conduct in the hospital on the 17th October was frivolous and vexatious.

3d—That the prisoner Mr. Assistant Surgeon Humpage is guilty of the crime laid to his charge in the 3d article of the charges, viz. a neglect of "duty in disobedience of the standing " orders of the Battalion 14th article, under the head of "hos- " pital and Sick," and "of the Battalion ordered dated 15th " March 1802,—and contumaciously persisting in the same not " withstanding the order of 17th of October, positively di- " recting an immediate compliance, under the frivolous and " unbecoming pretext, that the orders which he has received " from Government relative to the Sick in his charge, are of " that nature as to take up the whole of his time, and that " consequently the Battalion orders must be neglected he not " being able to execute the former," and that in the instances " in which he is found guilty, his conduct is to the prejudice " of good order and "military subordination."

4th—The court are further of opinion that the prisoner Mr. Benjamin Humpage is not guilty of the crime set forth in the additional charge, viz. "refractory and unbecoming conduct " from the 12th of December (the day it was notified to him " that a Court Martial was orderer to assemble for his trial and " in contempt of the garrison A. O. of the 19th October last, " sanctioned by the approbation of the officer, commanding " the division, improperly withdrawing his attendance from " the hospital several days under the pretence of ill health " occasioned by his having been in arrest at large, for two " months, without giving any intimation of the same (as it " was his duty to have done) for the information of the com- " manding officer, and for having neglected to discharge from " the hospital several recovered Men on the 17th and 18th of " December, conformable to the 5th article of the standing " orders, under the head of "hospital and Sick," they there- fore acquit him of the same as therein expressed, but they are of opinion that the aforesaid prisoner Mr. B. Humpage is guilty of neglecting to discharge certain recovered men from the hospital conformably to Battalion orders,—which together with other crimes of which Mr. B. Humpage has been found guilty being in breach of the articles of war, in such cases made and provided the court do therefore adjudge and sentence that the prisoner Mr. Benjamin Humpage, Assistant Surgeon, be suspended from rank and pay for the space of two calender months, to commence from the confirmation of these proceedings, and to be reprimanded in division orders by the officer commanding the southern division of the army, and the same is hereby adjudged and sentenced accordingly.
